

Recycled / Scrap plastics: – Gemini Corporation

Plastic Division

Gemini's foundation started with trading of recyclable Plastics scrap. Since inception we are following our unique concept of "100% Inspection".

We believe in value addition. We created our brand name by standardizing the non-standard plastics scrap industry. We hold 22.97% market share in total exports of polyethylene plastic scrap from Belgium.

We work on the concept of total recycling i.e. we export plastic scrap to recyclers and we buy back their reprocessed output which is a raw material for new products.
